## Directions:

- 1) Score Mint Macaron card base at 4-1/4". Fold and crease with bone folder.
- 2) Stamp the Thankful Sentiment on a 2-3/4" x 1" Vanilla piece. Adhere to a 3" x 1-1/4" Rich Razzleberry Mat. Adhere a 4" x 1-1/4" DSP piece to a 4-1/4" x 1-1/2" Delightful Dijon mat.
- 3) Die cut the floret piece from a Rich Razzleberry Scrap. Use the Die Brush to release from the die and the piercing tool to clean up any small pieces the brush doesn't catch.
- 4) Stamp and Die Cut a Paisley piece from a Copper Foil 2" x 2-1/4" piece. When stamping use Versamark ink and heat emboss with Copper embossing powder then die cut once the embossed piece cools. There are several dies that you can use for the copper foil that don't require stamping if you'd prefer not to heat emboss. If you use an intricate die cut instead use the Big Shot Die Brush to release the die from the paper. Run the die and paper back and forth through the Big Shot several times (or use the Precision Cutting Plate) to cut well. Be careful using the Brush on the copper foil paper so you don't leave marks on the burnished surface.
- 5) Adhere the DSP matted piece to the focal layer. Then add small dots of glue to the back of the floret and adhere to the focal layer. Use dimensionals to adhere the Thankful sentiment matted piece to focal layer. See picture for placement or use your imagination if you wish to change up the design.
- 6) Tie ribbon color of your choice (13") across the focal layer. There are three colors in the trio pack to choose from. Of course my personal favorite is the Mint Macaron. {grin}
- 7) Adhere the copper foil paisley die cut below the ribbon or where you choose. Attach the focal layer to the Mint Macaron card base.
- 8) Decorate and adhere the interior vanilla layer (4" x 5-1/4"). Decorate envelope as you wish.
